GEORGE MAYSON

If you looked up the word 'brilliant' in the dictionary, there would be a picture of you! Your work is flawless. From the moment I met you, I was instantly at ease. I left our first appointment so informed that my decision to go ahead was easy. I don't believe another doctor would take the time - nor care the way you do. This was proven when a girl at work got her boobs done around the same time I did. He never gave her any options and made all the decisions for her. I appreciate that although you guided me with your professional opinion, ultimately you let me make all the decisions so I would be happy. And the results speak for themselves, I was voted "Best Boobs" by everyone at work - this includes the guys and girls!! Shopping is no longer a nightmare as I can buy any top or dress I like now as I have the boobs to fill them! I'm looking forward to getting into a bikini this summer. George, I cannot praise you enough. No-one has ever guessed my boobs are fake because they look and feel so natural. Getting a boob job was the best decision I've ever made and can only be topped by the fact that you were the one that made it happen. Kind Regards,
